Grist Mills, Corn Shellers, Air Compressors, Miscellaneous
Hardware and Specialties

ROCK ISLAND PATENT AUTOMATIC SWIVEL VISE

This cut shows the simplicity of construction. Has fewer parts than any swivel on the market; in fact, no more than the ordinary stationary vise.

Casting is our special alloy; screw and handle, cold rolled steel; jaws, crucible cast tool steel, carefully hardened; nut, malleable iron. Dead black finish. Finished parts highly polished and lacquered.

ROCK ISLAND AUTOVISE Patented A Combination Pipe Vise and Anvil.

This vise is especially adapted for automobile repair work. There is nothing on the market so suitable for all kinds of repair work. This vise is very heavy, is made of same material as our other well-known types.

No.	Width Jaw	Capacity Pipe	Weight	List Vise	List Pipe Jaws
240	3 in.	⅞ to 1½ in.	42 lbs.	\$13.00	\$1.30
241	4 in.	⅞ to 2 in.	80 lbs.	16.00	1.50

ROCK ISLAND PATENT AUTOMATIC SWIVEL VISE WITH SELF-ADJUSTING JAW

Note the strength of our adjustable jaw. Our vises are known for their great strength.

The advantage of the adjustable jaw is obvious to all mechanics.

Casting is our special alloy; screw and handle, cold rolled steel; jaws, crucible cast tool steel, carefully hardened; nut, malleable iron.

Number	Width Jaw	Opens	Weight	List Price

25	7 in.	12 in.	238 lbs.	54.00

ROCK ISLAND AUTOVISE Patented Stationary Type

This Vise is similar to the Swivel type, except not so large and heavy. There is nothing on the market so suitable for all kinds of repair work. It has regular vise jaws for all kinds of machinists' work, pipe jaws for holding pipe and rods, and can also be used as an anvil. This vise can be sold at a price attractive to the individual automobile owner.

No.	Width Jaw	Capacity Pipe	Weight	List Vise	List Pipe Jaws

232	4 in.	⅞ to 2 in.	65 lbs.	14.00	1.50

DIAMOND SWIVEL VISE

This is our standard swivel vise, and we believe we have the best design on the market. Notice the lines of this vise.

These vises are heavy, and the material is well distributed. All vital points are reinforced. Our Diamond vises are practically unbreakable.

This vise can be turned in any position on an axis parallel with the floor and is locked by a clamping bolt, which works in a channel.

The grip is positive, and allows no slip.

Casting is our special alloy; screw and handle, cold rolled steel; jaw, crucible cast tool steel, carefully hardened; nut, malleable iron.

78	7 in.	12 in.	240 lbs.	70.00

DIAMOND SWIVEL VISE
WITH SELF-ADJUSTING JAW

Our standard swivel vise with self-adjusting jaw. This vise can be turned in any position on an axis parallel with the floor, and is locked by a clamping bolt which works in a channel.

This vise is lower in design than other manufacturers', so that they can be placed on same height bench with standard swivel and stationary vises. Workmen do not have to stand on platforms to work at our self-adjusting jaw vises. Don't forget this feature when buying self-adjusting jaw vises.

The back jaw of this vise is *self-adjusting* and when in use conforms *automatically* to any angle and makes firm the object held.

Number	Width Jaw	Opens	Weight	List Price

ACME WOOD WORKER'S VISE

Where the quick-acting feature is not wanted, this is the best vise on the market.

The screw is cold-rolled steel, front jaw is steel, frame or body is cast iron. The front jaw is faced with wood.

Number	Width Jaw	Opens	Weight	List Price
261	10 in.	9 in.	16 lbs.	\$4.00

ROCK ISLAND QUICK-ACTING VISE

This is the Parkinson Pattern, a very popular type used in Europe for many years. We manufactured large quantities for our Allies during the war.

Most quick action Vises sacrifice strength for the quick action feature. This design does not.

Castings, our special grey iron; screws, solid steel; handle, cold rolled steel; jaws, crucible tool steel, renewable; nut and operating lever, malleable iron.

Number	Width Jaw	Opens	Weight	List Price
203	3 in.	5 in.	38 lbs.	\$12.00
204	4 in.	5 in.	47 lbs.	14.00
205	5 in.	6 in.	70 lbs.	24.00

ROCK ISLAND COMBINATION PIPE VISE

We believe this to be the strongest pipe vise on the market. No vise is better made, better finished or more durable. These vises are heavier than made by most manufacturers, and the material is well distributed. All vital parts are reinforced. The front pipe jaw is reversible. Can be used either stationary or swivel.

Casting, is our special alloy; *screw and handle*, cold rolled steel; *jaws*, crucible cast tool steel, carefully hardened; *nut*, malleable iron.

Number	Width Jaw	Weight	Capacity Pipe	List Vise	List Jaw

ROCK ISLAND STEEL BEAM VISE

Stationary Type.

These vises have steel beams, or sliding bars, steel screws, cold rolled steel handles, and crucible tool steel jaws. The vise is so designed that there is an anvil provided. All finished parts are highly polished, and we are sure this is the best finished vise of this type on the market. Each vise is furnished with a center bolt, nut and washer for fastening to bench. Also provided with bolt holes for permanently fastening to bench.

Number	Width Jaw	Opens	Weight	List Price
351	2½ in.	3 in.	11 lbs.	\$3.75

354	4 in.	6 in.	30 lbs.	8.25
355	4½ in.	7½ in.	45 lbs.	12.00

ROCK ISLAND PIPE VISE

Self-Locking Type.

The base has lugs on both sides, so that the latch may hang on either side.

The body and base are malleable.

The screw and handle are cold rolled steel.

The jaws are crucible cast tool steel.

By using this class of material we are able to offer the best pipe vise of this type on the market.

Number	Capacity Pipe	List Vise	List Jaw Set
115	⅛ to 2½ in.	\$10.00	\$3.75
116	¼ to 3½ in.	14.00	5.25
117	½ to 4½ in.	20.00	7.50

ROCK ISLAND STEEL BEAM SWIVEL VISE

This vise is the same as the Rock Island Steel Beam Stationary vise, but provided with a swivel base. This vise can be quickly turned on the base, and securely fastened by the lever.

Number	Width Jaw	Opens	Weight	List Price
341	2½ in.	3 in.	12 lbs.	\$4.50

345	4½ in.	7½ in.	50 lbs.	15.00

COMBINATION ANVIL VISE DRILL

The most practical combination vise ever offered. Can be used as an anvil and also designed so that it can be changed from vise to drill instantly. The vise will hold work while it is being drilled.

It is a strong, durable tool. The slide or draw bar is a heavy T-beam section. Castings are of our special alloy. Handle is cold rolled steel. Jaws are provided with crucible cast tool steel. Anvil and finished parts highly polished and lacquered.

Number	Width Jaw	Opens	Weight	List Price
390	3¾ in.	12 in.	52 lbs.	\$6.00

ROCK ISLAND COMBINED ANVIL AND VISE

With Jaws for Holding Pipe

This vise is intended only for light work. This is the best finished vise of this type on the market. Has steel screw with cut threads, steel nut, and cold rolled steel handle. Anvil and all finished parts highly polished and lacquered.

Number	Width Jaw	Opens	Weight	List Price
380	3 in.	5 in.	26 lbs.	\$2.00

RIMCO ANVIL AND VISE With Drill Attachment

This is one of the few good combination anvil and vises on the market. It is a strong, well-made tool. Jaws are faced with steel. Screw and handle cold rolled steel.

The drilling attachment is a splendid feature. Mechanically better than most attachments of this kind. A separate feed screw with fine thread for feeding drills. Work support is adjustable.

Number	Width Jaw	Opens	Weight	List Price
370	3¾ in.	9 in.	50 lbs.	\$8.00
		Drill Attachment	10 lbs.	2.00

RIMCO BLACKSMITHS' VISE

This vise is suitable for light blacksmith work, and many other places.

A splendid vise for the farmer, contractor and others who occasionally have blacksmith work to do and need a vise of this type.

Jaws are faced with steel, screw and handle are steel.

Number	Width Jaw	Weight	List Price
34	4 in.	43 lbs.	\$6.00

SAW VISES

No. 100

This is a stationary type saw vise. Very simple in design. This vise does not have all the adjustable features, as in some other types, but is a good tool.

Jaws 9½ inches. Packed 7 dozen in a barrel. Weight 40 pounds per dozen.

List price, per dozen, \$12.00

No. 120

This vise has a ball and socket adjustment; the saw can be held at any angle desired. It is clamped to bench when used.

Jaws 9½ inches. Packed 4 dozen in a barrel. Weight per dozen 116 pounds.

List price, per dozen.... \$24.00

No. 140

(WENTWORTH PATTERN)

This has been a very popular saw vise for years. The rubber insert in jaw is a splendid feature.

This vise can not be clamped to bench; it is fastened by screws or bolts.

Jaws are 11 inches. Packed 5 dozen in a barrel. Weight 63 pounds per dozen.

List price, per doz. \$20.00

SAW VISES

No. 110s

This saw vise is extra heavy. It can be clamped to bench. The adjustable feature is desired by some mechanics.

Jaws are 9½ inches. Packed 3½ dozen to a barrel. Weight 85 pounds per dozen.

List price, per dozen.... \$18.00

No. 130

This saw vise is one of the most popular on the market. It is adjustable and clamps. Very simple design, considering the adjustable clamp feature.

Jaws 9½ inches. Packed 6 dozen in a barrel. Weight 58 pounds per dozen.

List price, per dozen \$18.00

No. 150

(WENTWORTH PATTERN)

This saw vise has rubber insert in jaws, and is similar in design to No. 140, except it is adjustable and can be clamped to bench for use.

Jaws are 11 inches. Packed 4½ dozen in a barrel. Weight 72 pounds per dozen.

List price, per dozen \$24.00

ROCK ISLAND VISE STAND

This is a strong, well-made stand. Shelves are of boiler plate, and revolve.

Bottom shelf is 38 inches in diameter, middle shelf 26 inches and top shelf 18 inches. It is 53 inches high, and weighs 235 pounds.

We sell or loan this display stand to dealers.

ROCK ISLAND COLUMNS

The columns are suitable for mounting bench tools, such as grinders, drills, vises, etc. They do not take up so much room as wooden benches, and are more solid.

Illustration shows one of our No. 5 Automatic Swivel Visas mounted on a No. 2 column. The vise swivels so that it is possible to use it from any position.

To find cost of vises mounted, choose size and type of vise wanted, and add price of column.

We make no extra charge for mounting.

Number	1	2	3	4

ROCK ISLAND FOOT POWER GRINDER

The most popular machine of this kind on the market. The construction is so simple that the cost is less than other Foot Power Grinders. Frame and pedals are made of steel.

Fig. 1

This machine is a combination of gear and crank. The pinion and gear are incased and protected from dust, etc. Bearings are in upper part of case (one casting). Impossible for pinion to bind or stick. This is an important feature not found in any other grinder. The pinion is cut from a solid piece of steel. The frame is steel, bars well braced. Seat is steel and arranged for adjustment as required. The wheel is a 6 x 1 1/4 inch corundum.

Fig 2. Showing Opposite Side

There is no other foot power grinder on the market so simple in design or so powerful. The arrangement of the pedals and the method of getting the power to the wheel is a feature of this machine. The machine is well finished, weighs crated for shipment about 70 pounds.

List price, each\$12.00

STAR SICKLE GRINDER

This cut represents the Star Sickle and Tool Grinder, which has been on the market for 15 years and added improvements each year have made it the very acme of perfection. It is generally conceded both at home and abroad to be the most perfect of any machine of this description and is increasing in popularity each year.

The machine grinds both sides of any section simultaneously and it is impossible to grind them inaccurately, as it grinds the heel of the section as perfectly as the point.

The machine measures 11 1/2 inches at the top of wheel, length over all is 18 inches, width 11 inches, weight 24 lbs., with two stones.

List price, with bevel and flat stones.....	\$5.50
Extra bevel stone, each.....	1.00
Extra plain stone, each.....	1.00
Saw gumming stone, each.....	.75

ROYAL SICKLE GRINDER

Is the most compact, strongest and simplest Sickle and Tool Grinder on the market; grinds both blades at once, even and true; is always in line as the knife-holder cannot turn round. It grinds out nicks. It fastens to the wheel of a mower or a block as you may wish. The stones may be changed in one minute by pulling out one cotter pin.

List price, with bevel and flat stone.....	\$5.00
Extra bevel stone, each.....	1.00
Extra plain stone, each	1.00
Saw gumming stone, each	.75

The flat stone is 2 inches thick and 4 inches in diameter, and will grind anything to be sharpened around a house or shop. Size, with handle up, 12 1/2 inches high, 12 inches wide, 19 1/2 inches long. Weight 16 lbs. with one stone, 18 1/2 lbs. with 2 stones. Size of box, 8 inches high, 9 3/8 inches wide, 12 1/2 inches long. Shipping weight, boxed, with two stones, 21 lbs.

ROCK ISLAND CEMENT TOOLS

The Rock Island line of Cement Tools is offered to the trade demanding the best. The same careful attention is given in the making of cement tools as to our other well-known tools.

Our cement tools will **outwear** any other on the market. We have added metal where they wear. This is a very important feature and should not be overlooked.

Handle is hard wood and a shape that fits naturally to the hand without straining the arm or wrist.

Tools having 100 numbers are grey iron, polished, nickel plated and buffed.

Tools having 200 numbers are bronzed, highly polished.

ARROWSMITH

CEMENT TOOLS

The above trademark has had a significant meaning to cement workers for the last few years. The Tools with this brand have represented a logical step in advance. Their efficiency in saving time and labor has caused hundreds of contractors and cement workers to throw out all their old short handled tools.

COMBINATION Nos. 1 and 2

Contractors and cement workers usually want a complete outfit of these tools; we therefore list these different assortments. When bought this way a saving is made.

This outfit contains 1 15-inch trowel, 1 jointer, 1 edger, 3 long regulation handles, 1 short emergency handle and a wrench.

- No. 1-I. Combination, 15-inch Trowel, iron. List. \$12.50
 No. 1-B. Combination, 15-inch Trowel, bronze. List. 15.00
 No. 2-I. Combination, 24-inch Trowel, iron. List. 13.50
 No. 2-B. Combination, 24-inch Trowel, bronze. List. 17.00

ARROWSMITH EDGER

Number	Material	Length	List Each
151	Iron	6½-in.	\$4.00
251	Bronze	6½-in.	6.00

ARROWSMITH

COMBINATION No. 3

This outfit is the same as Nos. 1 and 2, except two trowels are furnished. Complete outfit as follows: 1 15-inch trowel, 1 24-inch trowel, 1 edger, 1 jointer, 3 long handles, 1 short emergency handle and 1 wrench.

- No. 3-I. Combination, iron. List. \$18.00
 No. 3-B. Combination, bronze. List. 22.00

ARROWSMITH TROWELS

The blade of this trowel is 21 gauge steel, with malleable mounting. The handle is adjustable, permitting operator to manipulate tool from any direction, as shown by dotted lines.

Number	Length	Width	List Each
161	15-in.	5-in.	\$5.00
162	18-in.	5-in.	5.75
163	20-in.	5-in.	6.25
164	24-in.	5-in.	7.00

ARROWSMITH

JOINTER

This jointer, same as all other Arrowsmith Tools, has the adjustable handle. Long or short handle can be used.

The ends curve upward, giving the tool a "rocker" shape and permitting it to cut its way instead of plowing.

Number	Material	Length	List Each
150	Iron	6¼-in.	\$4.00
250	Bronze	6¼-in.	6.00

ROCK ISLAND COMBINATION FORGE, ANVIL, VISE, DRILL, ETC.

For a Man's Job:

This Combination Tool is in no sense a plaything—it is devised and built to do hard, heavy, practical work.

Frame—Is steel solidly braced and with center shelf for tools, oil can, etc.

Forge—Is oval—12 x 15 inches and 27 inches above floor.

Fan—Is 7 inches in diameter and driven by accurately cut gear and pinion.

Anvil—Is 3½ inches wide by 12 inches long.

Vise—Jaws are 3½ inches wide and open 11 inches. Pipe jaws will take pipe up to 2 inches in diameter.

Drill Chuck—These are steel and take ½ inch round shank drills.

Overall Dimensions—40 inches high and 29 inches long.

Weight—135 pounds.

The Rock Island Home Repair Shop is built to perform and to endure. Thousands of them are making good a full 100 per cent.

This COMBINATION MACHINE is indispensable to the farmer, ranchman, contractor and others at a distance from repair shops. It is equally useful and profitable to others who have automobiles, tractors, heating and water plants, machinery, equipment, etc., needing upkeep and repairing.

The different tools are in no sense attachments, but are built as an integral part of the machine. No bench is required and machine and tools are always ready for use. Construction is solid, strong and simple—there is nothing to break or get out of order. IT IS A MARVEL OF COMPACTNESS, EFFICIENCY AND ENDURANCE.

It Turns Spare Time Into Profit

No man with boys growing up could make a better investment as a matter of manual education and training. We have sold hundreds for this very purpose.

Just the thing for the man or boy who likes to putter around home making or fixing things.

ROCK ISLAND BENCH SCREWS

The screws are steel, castings are extra heavy, handle is hard wood. The threads are accurately cut. These Bench Screws are carefully made and are high grade goods.

Number	1	1⅛	1¼
Diameter	1 in.	1½ in.	1¾ in.
Length	16½ in.	16½ in.	17½ in.

ROCK ISLAND CLAMP ATTACHMENT

Our clamp will fit $1\frac{3}{8}$ x $2\frac{1}{2}$ bar of any length. Is quickly adjusted.

This is the best design clamp on the market, more practical than any other.

Screw is cold rolled steel, threads are accurately cut. The castings are extra heavy.

ROCK ISLAND SEMI-STEEL MAULS

These Mauls are made of a mixture of Iron and Steel, are very tough and strong, will not chip off and break like the ordinary kind. Made in five sizes: 10-lb., 13-lb., 16-lb., 18-lb., 20-lb. each. We do not ship our Mauls as they come from the foundry—without being finished. Our Mauls are all finished. A well finished article is more easily sold than a rough looking casting, many times badly rusted. The use of this Maul will increase your sales.

STOVE CASTERS

These casters are extra heavy.

Roller bearings require little effort to move stoves or heavy furniture.

No other caster on the market is so well made.

Weight, per set of 4, 10 pounds.

List price, per set of 4..... \$2.00

ROCK ISLAND RATCHET JACK SCREW

The three sizes we make will take care of most any requirement, and it is not necessary to carry such a large assortment.

The screw of our jack is cold rolled steel. Base and cap cast iron. Lever is malleable iron. Threads are accurately cut, and entire jack is well made and finished.

No.	Capacity	Diam. Base	Diam. Screw	Height Closed	Height Open	List
1	25 ton	9 in.	2 in.	9½ in.	18 in.	\$3.50
2	25 ton	9 in.	2 in.	15½ in.	24 in.	4.50
3	25 ton	9 in.	2 in.	21½ in.	30 in.	6.00

ROCK ISLAND EMERY WHEEL DRESSER

(Huntington Pattern)

For truing, shaping and removing glaze from emery wheels while running.

Handle is a strong, clean grey iron casting.

Cutters are made from steel most suitable for this purpose.

All cutters are carefully hardened the proper temper to give good service.

These dressers are enameled black. One extra set cutters furnished with each dresser.

List price, per dozen..... \$12.00

List price, extra cutters..... 3.00

ROCK ISLAND HAND GRIST MILLS

Our line of grist mills is the very best that can be made. Each part is made of the best material for the work it has to do. Castings are made in our own foundry. All shafts are cold rolled steel. The burrs (the parts of greatest wear) are made of an alloy, and are easily and cheaply replaced.

These mills are adapted to grinding corn, coffee, salt, dried bones, dried shells, small grains, etc.

Number	Shipping Weight	List Price	List Price, Extra Burrs
1 1/2	27 lbs.	\$2.50	\$0.50 per Pair
2	47 lbs.	5.00	.75 per Pair
3	86 lbs.	7.50	1.00 per Pair

This is a different type, but is made of the same material as our other types.

The most durable, rapid and best finished hand grist mills made.

The mills are attractively finished.

Number	Shipping Weight	List Price	List Price, Extra Burrs
1	30 lbs.	\$4.00	\$0.75 per Pair

ROCK ISLAND HAND GRIST MILLS

This type of mill is preferred by some.

It is a very rapid grinder. Will not grind so fine as the other types, but is just the mill for grinding coarse grains, dry bones, shells, charcoal, etc.

Number	Shipping Weight	List Price	Complete Burr Equipment
4	27 lbs.	\$4.00	\$1.00

RIMCO GRAIN MILL

This mill will grind wheat suitable for making whole wheat bread, also grinding corn for meal, coffee and other grains. Our new designed burrs are superior to any on the market. Burrs furnished with mill will last a long time. New burrs quickly and easily attached. Hopper is heavy tin. Mill is well made and nicely finished.

Packed singly, suitable for reshipment.

Shipping weight about 13 pounds.

List price	 each, \$5.00
List price, extra burrs	 per pair, 1.00

ROCK ISLAND CORN SHELLER

Our hand corn sheller is a well designed machine, and is manufactured with more care than is usually given a machine of this kind. It is adjustable to any size ear by a tension spring and thumb screw. Shells clean and does not crack the corn. Each machine furnished with an attachment for pop corn. Attractively finished.

Weight, 13½ pounds.

ROCK ISLAND FRUIT PRESS

Our fruit presses are well made, and of good material.

Cylinders are extra heavy tin plate. Screws are cold rolled steel, threaded to give powerful pressure.

These presses are attractively finished with a grey baking enamel.

Number	Capacity	Weight
1	2 Quart	14 lbs.
2	4 Quart	26 lbs.
3	10 Quart	43 lbs.

RIMCO CORN SHELLER

This is an excellent sheller. Strong and durable. Shells rapidly all sizes of corn. Adjustable feature permits small or large ears. Butting and tipping attachment furnished. Imperfect grains can be shelled off when used for seed. Cobs are discharged separately. This sheller can be attached to barrel or box. Weight about 20 pounds.

ROCK ISLAND SAUSAGE STUFFER

These sausage stuffers are carefully made.

The body castings are accurately ground, insuring a tight joint. This is an important feature not found in other stuffers on the market.

Levers are extra long and strong.

Made in 2 sizes. No. 0 weighs about 13 lbs., and No. 1 about 8 pounds.

ROCK ISLAND SEMI-STEEL ANVILS

This is an ideal anvil for farm or light shop use. Have a large percentage of steel in the mixture, which makes them hard and tough. The anvil is well finished, the top being true and well polished. Made in three sizes only: 50 lbs., 70 lbs., and 100 lbs. each.

SMALL ANVILS

Aside from the above, we make a good anvil for the home—also suitable for jeweler and other trades requiring a small light anvil. Made of cast iron, face, sides and horn nickel plated—base black.

Write for prices.

**ROCK ISLAND BLACKSMITH'S
DRILL**

This is a strong and substantial drill. It will do good work on all kinds of light drilling. Spindle is bored for one-half inch round shank drills.

Our drill is carefully made and well finished.

Number	Length	Adjustment	Weight
600	20 in.	12 in.	29 lbs.

RIMCO RIVETER

This riveter is for hollow rivets; solid rivets cannot be used. Well made and extra strong. Special design of lever insures greater power. Black enamel finish. Weight about 4 pounds.

List price, each, without rivets..... \$1.00

RIMCO FLOOR SCRAPER

More work possible with this scraper than several hand scrapers.

Operator draws scraper toward him, similar to the hand scraper, the weight of the machine keeps blade to the surface being scraped.

Wheels are rubber-tired to prevent scarring or scratching. Handle is adjustable to permit scraping close to walls, etc.

Blades are made of crucible steel properly tempered and finished. They are six inches wide.

Machine is well finished and securely packed. Weight about 125 pounds.
